Preferred Endoscopist: Yes No

Special Instructions apply for the following (Please let us know):

- ① If you have Diabetes ② If you are taking Aspirin or Warfarin (blood thinners)

GASTROSCOPY:

This is an examination of the oesophagus, stomach and duodenum with a flexible camera that projects very high resolution pictures to a TV monitor.

Please do not eat or drink for at least 6 hours before the procedure

COLONOSCOPY:

This is examination of the bowel using a flexible tube with camera at its end. This can visualise the bowel and small intestine with high resolution pictures. You will have to undertake special diet and bowel cleansing before the test.

IMPORTANT NOTE:

Most endoscopic procedures are carried out under sedation therefore it is necessary to read the following instructions:

- Arrange for someone to collect you after the examination
- Please do not drive, operate machinery or dangerous appliances for at least 12 hours after the examination
- Do not make any important decisions on the day of the examination

ENDOSCOPY SPECIALISTS:

Paul Casey • Ravinder Ogra • Stephen Persson • Dinesh Lal • Stephen Gerred
